

TechConf 2026

Attendee Registration Confirmation

ATTENDEE

Priya Natarajan

Senior Platform Engineer · Nimbus Analytics

Badge ID: TC26-08421 — Payment confirmed — Workshop pass included

You're all set for September 14-16

Bring this confirmation (printed or on your phone) to badge pickup. Pickup opens at 08:00 on Day 1 in the North Lobby — look for the orange TechConf banners. Your workshop pass covers one half-day workshop of your choice on Day 2; seats are first-come, first-served.

Unicode check: café, naïve, über, Zürich, €125 day pass, £, ¥ — all rendered from the same embedded Noto Sans instance, no per-script font-switching. (Full CJK/emoji coverage needs the separate Noto Sans CJK / Noto Color Emoji font files — not included in the base Latin/Greek/Cyrillic instance downloaded here; fpdf2 warns loudly about missing glyphs at build time rather than silently showing blank boxes, which is how this gap was caught.)

Session Schedule

Time	Session	Speaker	Track
09:00	Opening Keynote: The Next Decade of Data Infra	M. Chen	Keynote
10:15	Building Reliable Ingestion Pipelines at Scale	R. Okafor	Platform
10:15	A Practical Guide to Query Optimization	S. Lindqvist	Data
11:30	Zero-Downtime Schema Migrations	P. Natarajan	Platform
11:30	Designing Dashboards People Actually Read	J. Alvarez	Product
13:30	Workshop: Streaming ETL from Scratch	R. Okafor	Workshop
13:30	Workshop: Building a Report-Generation Pipeline	T. Brandt	Workshop
15:00	Cost Optimization War Stories	K. Nakamura	Platform
15:00	From Notebook to Production: An ML Pipeline Story	A. Osei	Data
16:15	Panel: What We Got Wrong About Data Mesh	Multiple	Keynote
09:00	Day 2 Keynote: Lessons from a Decade of Outages	K. Nakamura	Keynote
10:15	Rate Limiting That Doesn't Make Everyone Angry	S. Lindqvist	Platform
10:15	Data Contracts in Practice	J. Alvarez	Data
11:30	Closing Remarks & What's Next	M. Chen	Keynote
